The Honorable John Boehner
Speaker of the House
U.S. House of Representatives
Washington, D.C. 20515

The Honorable Nancy Pelosi
House Democratic Leader
U.S. House of Representatives
Washington, D.C. 20515

**ACPPA URGES SUPPORT FOR THE COAL RESIDUALS REUSE AND
MANAGEMENT ACT (H.R. 2273)**

Dear Speaker Boehner and Leader Pelosi:

We are writing to express the concrete pressure pipe industry's strong support for the Coal Residuals Reuse and Management Act (H.R. 2273), which was approved by the Energy & Commerce Committee with strong, bipartisan support.

The Coal Residuals Reuse and Management Act balances environmental and safety concerns while allowing industry to continue to recycle fly ash for use in concrete production. H.R. 2273 would ensure the ongoing beneficial use of coal combustion residuals, but strengthen state regulatory authority over these materials. It also would prevent the Obama administration's attempt to reclassify these materials as a hazardous waste under Subtitle C of the Solid Waste Disposal Act.

The Environmental Protection Agency's plan to regulate coal ash as a hazardous waste would have an adverse impact on our industry, threatening job creation and economic growth. H.R. 2273 allows for the proper management of these materials in a way that protects public health, the environment, and jobs.

ACCPA urges you to co-sponsor H.R. 2273 and looks forward to working with you to enact this important legislation.

Sincerely,

Hanson Pressure Pipe
